If Extended powers are to be given with D.G. as suggested, the budget allotment for each kind of grant will have to be separately shown and carefully fixed each year and the power of reappropriation from one head to another reserved for Govt.

I agree. mmk

19

In the case of grants for instruction, it may perhaps be preferable to lay down a rule stating that grants to an individual institution above a certain amount - say 3 00 or 400 should be sent up to Govt for sanction.

Such large grants will be necessary only in the case of Anglo Vernacular & High Schools & there cases may continue to be sub'd to Govt mmk

20

To ensure that grants are not ~~have been~~ arbitrarily sanctioned, it may perhaps be laid down that quarterly or half yearly statements ~~of~~ of grants sanctioned by the D.G. may be submitted to Govt. which may be reviewed by the Education Branch of Govt. This would not fetter the hands of the D.G. but at the same time would provide for the scrutiny of the grants sanctioned by Govt

According to the delegation proposed grants-in-aid can be sanctioned only under the rules and only to the extent permitted by them. The control by Govt has to be exercised in this case by limiting the allotments for new grants & by retaining the power of reappropriation

831	22 (1) The object of the proposal is to vest in the Inspector-General the power to sanction, within certain limits, grants-in-aid admissible under the rules of the "Grant-in-aid" Code. As the draft Government Order now stands the condition "in accordance with the Grant-in-aid Code" is noted only in the case of power in regard to grants for instruction while it is equally necessary in the case of powers proposed to be delegated in regard to other grants-in-aid. The draft Government Order requires revision in this respect.
	(2) In the case of "H Special Institution" no definite instructions either laying down the conditions to be fulfilled for claiming grants or for fixing the amounts of grant payable are given in the rules, which require each case to be treated on its own merits. It is therefore desirable to require proposals for grants-in-aid to these institutions being submitted to Government for sanction.

Also in the case of "Anglo-Vernacular and High Schools" in which the amounts of grants are likely to be large the sanction of Government may be required.

(3.) When the power to sanction grants-in-aid is left to the Inspector-General the amount of annual provision for each kind of grants becomes an important factor in controlling expenditure. The annual allowances for each class of grant has to be fixed with great care and in the explanatory notes accompanying the budget estimates of the Education Department the Inspector-General has to show distinctly the amount required on account of grants already sanctioned and in force and that for grants expected to be sanctioned in the next year. Provisions for new grants have to be fixed with reference to available resources. It is necessary to reserve to Government the power to make transfers of provisions from one class of grant-in-aid to another or to add to the allotments for grants in-aid by transfer of funds from other heads.
